

PALLIATIVE/HOSPICE CARE

We are committed to treating the whole life of a resident, not just an illness or injury. To provide much needed comfort and reassurance to our residents our **Palliative Care** program utilizes a variety of treatments administered by a skilled team of therapists, counselors and social workers to help relieve pain and suffering while offering hope and encouragement. More than just an excellent bed-side manner—a guiding principle at all Senior Care Centers—our Palliative Care plans may include psychological counseling, spiritual care assistance, developing a support system and assistance coping with symptoms beyond medical intervention.

- ☺ Pain and symptom management
- ☺ Counseling and spiritual support
- ☺ Social services (offered at select Senior Care Centers locations)
- ☺ Bereavement and vigil care
- ☺ 24-hour skilled nursing and medical support services

The heart of
nursing care is here.
